In the coming months you will receive an email from us asking you to reset your Vectis Account password.

Please do not worry, this is a genuine email, we are doing this as we are changing our website and newsletter systems. In order for you to continue to access your Vectis account and to receive the newsletters you will need click the link when you receive it to reset your password.

The new website will have better functionality, provide much more detailed account information and the Newsletters will allow you to customise what you receive from us.

We will send regular reminders when the emails are sent out to ensure you are still able to access your Vectis account and to bid.

We look forward to showcasing our new website and newsletter in Autumn.

CONDITIONS OF SALE

Bids can be placed online, prior or live during the auction, via telephone or commission.
THERE ARE NO ADDITIONAL CHARGES FOR USING THE VECTIS PLATFORM TO BID.

**The Buyers Premium will be increasing to 22.5% +VAT (TOTAL 27%) from the 1st June 2023.
Invaluable bidders incur an additional charge of 5% from Invaluable, (32%)**

If payment is to be made by cheque and the cheque exceeds the cheque card guarantee limit, then goods can only be collected on the day of the sale if the buyer is known to us, or if prior arrangements have been made. We reserve the right to hold goods until a cheque is cleared. Lots can be paid for by credit card. Most major brands are accepted.

Commission bids will be executed at no extra charge and we guarantee to purchase lots as cheaply as possible, allowing for other bids. Successful commission bidders will be notified by email immediately after the sale. Full payment must then be sent to the Auctioneers.

Persons are reminded to handle all items with care. Any loss or damage will be payable at a cost to be decided by the Auctioneer, whose decision will be final. Please be careful.

We have endeavoured to describe items as accurately and as fairly as possible.

The terms we have used to define condition are detailed in the Condition Classification. The classification relates to the appearance of an item. No warranty can be given to the mechanical or electrical operation of any item. It must be understood that any description or assessment of an item or its condition must be regarded as opinion only, and cannot form part of any legal contract.

Where we have identified particular faults or damage to items it must be understood that reference to such faults does not imply the absence of others, nor does the lack of such a reference imply that an item is free of faults. Prospective purchasers must satisfy themselves as to the suitability of lots before buying. Only in the event that an item should be found to be a deliberate forgery, could a transaction be rescinded. Once this is proven to the Auctioneers, then all money paid will be refunded, provided the item is returned within 7 days of the sale in the condition it was sold.

▶ TELEPHONE BIDDING

As of the August 2023 auctions, there is a £100 minimum phone bid in effect.

If you would like to bid live via the telephone please contact us prior to the day of the auction on **+44 (0) 1642 750616**. On the day of the sale you will need to be available so that we can contact you via the telephone during the live auction. CONDITIONS OF SALE: CONTINUED

▶ ESTIMATES

Based upon prices recently paid at auction for comparable property, and take into account condition, rarity, quality and provenance. Estimates are subject to revision. Vendors should not rely upon estimates as a representation or prediction of actual selling prices.

▶ RESERVES

In normal circumstances, Vectis Auctions do not accept reserves, however if a vendor wishes to place a reserve on a lot and that lot is eventually unsold, Vectis Auctions will charge the vendor a fee of 7.5% of the placed reserve. The reserve is the confidential minimum price the vendor will accept and must be agreed with Vectis Auctions beforehand. This value will not exceed the top pre-sale estimate.

▶ LATE WITHDRAWALS

(A) Lots withdrawn once an item has been catalogued will incur a charge of **15%** of the midpoint between top and bottom estimate or the reserve, whichever is greater.

(B) Lots withdrawn after the catalogue has been printed and distributed will incur a charge of **25%** of the midpoint between top and bottom estimate or the reserve, whichever is greater.

▶ PAYMENT OF PROCEEDS OF AUCTION

Payment is normally made **twenty five working days** after the sale, however Vectis Auctions reserve the right to withhold any funds if the buyer fails to make payment. If the buyer fails to make payment within the calendar month, Vectis Auctions have the right to pay the vendor an amount up to the net proceeds payable in respect of the amount bid by the defaulting buyer.

▶ SHIPPING

Items will be shipped as quickly as possible but due to the high volume it may take up to 21 working days to ship. If you are bidding in more than one of our auctions, we will where possible combine lots into one parcel to make shipping more economical. We ship world-wide, post and packing charges will depend on the weight, dimensions and value of the parcel. All parcels are insured and traceable. We send via Courier or Royal Mail.

For your guidance we have included estimated prices against each Lot.
