About the Collection

We are very proud to present this beautiful and fascinating jukebox collection from Jukebox Museum De Panne.

Jukebox Museum De Panne near Oostende in Belgium was known as one of the largest collections of jukeboxes and radios in Europe. This museum had to grow into the tourist attraction in the region. Too bad, the museum never reached the expected number of visitors and had to close its doors.

The jukebox collection was privately owned by Geert Olieu, a collector of jukeboxes and radios. It took him 35 years to put together this beautiful and unique collection.

They are all top models from the thirties, forties, fifties and early sixties like AMI, Rock-Ola, Seeburg and Wurlitzer. And not only the big well-known brands, but also lesser-known and rare jukeboxes from Mills, Packard and United, among others, and European-made jukeboxes such as Bergman, Discophone, Emaphone, Jupiter and Tonomat are in this collection.

We will auction the entire collection on the 24th of February 2024 so that enthusiasts and collectors all over the world can bid on the jukeboxes of this incredible jukebox collection!

The auction covers nearly 200 lots with over 100 jukeboxes, many wall boxes and a lot of accessories, all offered one by one in a big auction sale!

Highlights of the auction include the Wurlitzer 2100, Rock-Ola Tempo 2 model 1478, Seeburg V200, AMI H200, Seeburg KD200, Wurlitzer 2104, Tonomat Panoramic 200 and the Wurlitzer 1800.

Leading up to the auction we welcome you to attend the preview days and experience this great jukebox collection at the gallery of Dutch Auction Company.

We look forward to seeing you at the Jukebox auction on 24 February!

1988 SONGBIRD '57 THUNDERBIRD JUKEBOX

This rare jukebox has a pink 1957 Ford Thunderbird style fiberglass body with a white top that fits flush against a wall. It currently has 6 of the 80 Slots for 45 rpm vinyl records full and the same number of the label Slots on either side of the mechanism and thus offers up to 160 selections. It uses a German mechanism, Model ES-2 NSM to select the records. There are lights behind the chrome trimmed tail lights and a standard size license plate holder. A sealed manila envelope attached to the inside has the tubular wrench the factory supplied. Two keys are in their factory location, screwed to the rail on the back of the unit. When this particular Songbird Jukebox was manufactured in December 1988, by Carson City Parlour of Shakopee, Minnesota, it was made without a coin mechanism, displayed in a retail store, not being used, for 10 years and then kept in a climate controlled storage for the last 20 years! These are becoming more and more scarce as international collectors have become attracted and you simply will not find another unused example.
Serial No. 2031.

Dimensions (H x W x D): 131 x 175 x 84 cm

Condition: Excellent

Location: Switzerland, Degersheim

Estimates: € 7000 - € 12000
