The collection from a French collector in Paris includes a number of great Bussoz Roulette Slot Machines, Fortune Tellers, an antique Caille Commercial Slot Machine from 1910, Mills/Pace and Jennings Slot Machines, an original Watling Rol A Top Slot Machine and an all original Swinnen Table Top Soccer Game from 1928. The collection came from Paris to our Gallery in Tilburg, The Netherlands, and is all lined up ready to go under the hammer piece by piece.

Also the 56 year old Citroën and Car Memorabilia collection from Wil van de Camp is part of this auction. The Citroën collection consists of various classic cars and hundreds of car memorabilia.

Wil's passion for Citroën started in 1967 when he bought his first Citroën Model C4 from 1930. From this moment on Wil started his collection. The first purchased car in 1967 is still part of the current collection! The cars from this collection will be sold in our Classic Car Auction on 28 September.

Furthermore, we have collectors that consigned many fairground attributes such as Bernard Kindt and various wooden animals for carousels, fairground collectibles, fairground organs and even complete fairground rides and attractions!

We will auction all these collections in one big sale of 477 lots on Saturday the 15th of June 2024!

Highlights include a Mills Owl Musical Upright Slot Machine, 6 meter long gypsy wagon, 52-key Dutch street organ 'De Salem', the Helter Skelter fairground attraction, a rare Belgian Goliath Jukebox and a fantastic Weber Grandezza Orchestron.

Leading up to the auction we welcome you to attend the preview days and experience this great collection at the Gallery of Dutch Auction Company.

We look forward seeing you at the auction!

## 6M LONG GYPSY WAGON WITH THE FAMOUS RAISED 'CUCKOO' ROOF

"This beautiful Gypsy Wagon, also called living wagon (woonwagen or schrotenwagen in Dutch), Pipo Wagon, Tiny House, Wooden Caravan or Vardo is a traditional horse-drawn wagon developed around 1810 in France. They were soon used by showmen traveling with fairs and circuses as their homes. Romani began living in gypsy wagons around 1850, they called their home a 'vardo' and it became their most prized possession. This Gypsy Wagon was built circa 2018 by P. Schuermans in The Netherlands. In the earlier years of the 20th century, when P. Schuermans' father was still alive, the Schuermans family built, maintained and repaired various Gypsy Wagons. This Gypsy Wagon was built with the typical white wooden slats on the outside and the partition wall with sliding doors between the living room and bedroom on the inside. The dimensions of the bedroom is 210 high x 200 wide x 170 cm long. The living room is 210 high x 200 wide x 318 cm long. It has the well-known and famous raised roof with windows in the roof on both sides, the so-called 'cuckoo' roof. The windows in the living room and bedroom can be opened with the tilt position. In the bedroom is a fuse box located that supplies the Gypsy Wagon with power at various locations. There are double doors on both sides of the wagon, both of which can be fully opened and are equipped with locks. Windows on all sides of the wagon, sleeping and storage compartments. The Gypsy Wagon is in excellent condition, hard to find one like this! The Gypsy Wagon does have a Dutch vehicle registration, license plate and comes with the needed paperwork. ### 2022 C.J. PERLEE DUTCH 42-KEY STREET ORGAN "SOPHIA"

A Dutch C.J. Perlee 42-key Street Organ called "Sophia" built by Cor Perlee, son of the famous G. Perlee from Amsterdam. This is the very last organ built by C. Perlee before he passed away in November 2022 which makes it the very last organ built by the famous family Perlee. There are no successors. C. Perlee started building this organ in 2017 and has 42 keys, 7 basses, 10 accompaniments, 18 vocals (violin/bourdon), bass and snare drum. A special word from Lucienne Perlee, daughter of C. Perlee, dedicated to this organ:

"My father couldn't sit still. He said I'm going to build one more organ. He did this in the dining room at his home. Dad started building the organ in 2017. But in 2018 my mother was diagnosed with Alzheimer's so he couldn't work on it as much as he wanted. When my mother died in 2019, he named the organ Sophia. His grief made him work harder on the organ. He always said - I don't know when it's my time to go and I want to get it done before my time comes. 3 months before my father died, his pride project was finished. My father passed away on November 14, 2022. My dear father worked for hours, days, months and years on this showpiece. All handmade. Age also played a role in the fact that everything did not go smoothly and took more time. But at the age of 86 he succeeded and finished the organ. I hope that the organ will find a new home where it will receive the deserved appreciation. This is really the last original Perlee organ. Lucienne Perlee." The organ is in playing condition. Comes with 5 books, 18 rolls/types for stenciling or cutting and 6 additional trombones. A special, last organ made by the famous Perlee family.

### 1933 BELGIAN FREI/GOSSLING 52 KEY STREET ORGAN "DE SALEM"

1933 Belgian Frei/Gossling 52 Key Street Organ "De Salem". This beautiful street organ has had a wonderful journey in its life. In 1921 Carl Frei opened a factory in Breda, Holland, where he designed the special scales of pipe complements for Dutch street organs. The most popular models were in the 52, 67, 72, and 90-key sizes. In 1933, Frei purchased this 52 key organ - at that time a fairground organ - from Pierre Eich of Gent Belgium, and rebuilt it into the street organ it is today. After WWII, H. Gossling purchased the instrument from Carl Frei and had it rebuilt. It remained in Holland until it was purchased by the collector in 1990, when it was restored by Riks Gossling and converted to the Limonaire scale. The organ has a striking appearance, great color scheme to the restored façade, on a newer wagon cart, with replicated front band leaders. This instrument has a wonderful appearance, some age cracks are present but nothing that distracts from the look. Playing on book scale, it has a nice raw sound, consistent with the sound organ builders were looking for post WWII. A real great example of a Dutch street organ and ready for any collection. Includes 12 cardboard music books.

**AUSTRIAN MUSICAL PAINTING WITH CLOCK CA. 1850-60**

Austrian Musical painting with clock in ornate gilded frame, ca. 1850-60. The original silk thread suspension Viennese timepiece is 7-day running with two gongs for sounding hour and halves. The finely detailed oil-on-tin painting depicts a typical returning veteran, lakeside village and dramatic mountains in the distance. There never existed a trip-connection between this original timepiece and the single-tune, manually operated musical movement hidden within. That movement is signed as to the maker: "Willenbacher & Rzebitschek in Prag" with serial #16521. It is however lacking its tune change lever, so only 1 of the 2 melodies currently function. The ornate gilded frame is lacking a few trim plaster pieces at the lower edge.

### MASSIVE COMPTON 9 RANK CINEMA/THEATER ORGAN CA. 1934

In the early 20th century custom design pipe organs were used to accompany silent movies, and later as feature entertainment during the era of "talkies". While The Rudolph Wurlitzer company is legendary in this respect, The John Compton Organ Company supplied many of the fine instruments to cinemas throughout the British Isles. This particular organ, one of the finest of its size, was supplied in 1934 to the Astoria Cinema in Kingston, Hull, a brand new state of the art cinema at that time. Seating over 1500 people, the organ had to be powerful enough to fill the large auditorium with sound. It performed for many years until it fell into disrepair in the 1970's. In the early 80's, the Compton was removed from the Astoria and reinstalled in a theme park, but when this venture failed in 1989, the York Museum of Mechanical Music was able to purchase it. Still in entirely original condition, the organ was purchased into a collection in 1999 and completely rebuilt. Over € 100.000,00 was spend. Now the organ can be played manually or via computer. This instrument is complete, from keyboard to compressor. The illuminated surround can be set to give a fixed color or to change slowly through the colors of the rainbow. Everything is here to redeploy a piece of music history into your venue. Comes with original archive photo's of James Swift at the organ console who opened in the Astoria Cinema in 1934. PLEASE NOTE: The Compton is located in our Gallery and is dismantled and packed in professional crates ready for international shipping. We have a team that can facilitate world wide delivery and installation.

**GERMAN GERBRUDER WEBER "GRANDEZZA"  
ORCHESTRION CA. 1923**

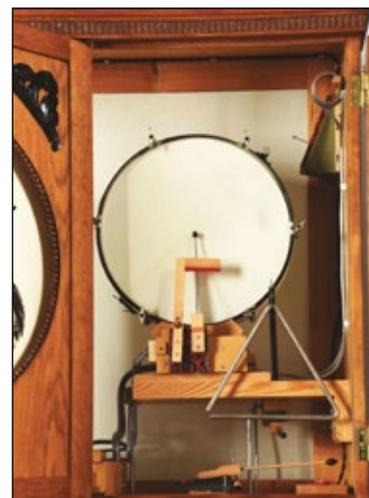

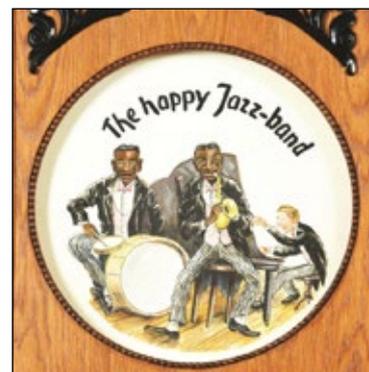

1923 German Gebruder Weber "Grandezza" Orchestrion. The Weber company released the first Grandezza orchestrion in 1920 and it became their best selling product during the 1920's, followed by the Weber Unika, also selling in this auction. The instrument features keyboard style piano with mandolin attachment and a 20 note repeating xylophone. Built by the famous Weber Bothers of Waldkirc, Germany, nestled in the Black Forest, home to some of the worlds best craftsmen, beautiful walnut cabinet with applied carvings and columns.
