VAT PROCEDURES FOR EXPORT OF GOODS

Deposits procedures

EU Countries

Where goods purchased at auction are to be exported it may be possible for the goods to be sold without adding VAT. If you intend to export goods you must inform the auction staff at the auction of your intention to export who will issue a zero-rated invoice if appropriate. If you are exporting to another EU country, you must provide auction staff with your name, address and EU VAT number. These details will be included on the sales invoice. If you do not have a valid EU VAT number, VAT will be charged at the appropriate rate. All buyers must pay a refundable deposit equal to the amount of VAT that would otherwise be payable. This must be paid prior to the goods being removed. This will be held by us and refunded once we receive satisfactory proof of export. In order for the VAT deposit to be refunded, all goods must be exported and proof of export provided (see below) within 3 months of the date of the auction. If we do not receive suitable evidence of export within this time we will keep the VAT deposit and issue an invoice charging VAT at the appropriate rate. VAT will always be payable on any buyer's premium. Original documents must be provided in order to refund the VAT.

Non-EU Countries

Where goods purchased at auction are to be exported it may be possible for the goods to be sold without adding VAT. If you intend to export goods you must inform the auction staff at the auction of your intention to export who will issue a zero-rated invoice if appropriate. All buyers must pay a refundable deposit equal to the amount of VAT that would otherwise be payable. This must be paid prior to the goods being removed. This will be held by us and refunded once we receive satisfactory proof of export. In order for the VAT deposit to be refunded, all goods must be exported and proof of export provided (see below) within 3 months of the date of the auction. If we do not receive suitable evidence of export within this time we will keep the VAT deposit and issue an invoice charging VAT at the appropriate rate. VAT will always be payable on any buyer's premium. Original documents must be provided in order to refund the VAT.

Proof of export

Evidence must show that the goods you have been supplied with have left the UK. Copies of commercial transport documents and/or official HMRC export evidence alone will not be sufficient although they should still be provided. Information held must identify the date and route of the movement of goods and the mode of transport involved. It should include the following:

Name and address of vendor
Name and address of customer
Description of goods
Value of goods

Date of departure of goods from the auction premises and from the UK.
Name and address of the haulier collecting the goods
Registration number of the vehicle collecting the goods and the name and signature of the driver
and, where the goods are to be taken out of the UK by a different haulier or vehicle, the name and
address of that haulier, that vehicle registration number and a signature for the goods
Route, for example, Channel Tunnel, port of exit
Copy of travel tickets
Name of ferry or shipping company and date of sailing or airway number and airport.
Trailer number (if applicable)
Full container number (if applicable)

Vague descriptions of goods, quantities or values are not acceptable. For instance, "various
electrical goods" must not be used when the correct description is "2000 mobile phones (Make
ABC and Model Number XYZ2000)". An accurate value, for example, £50,000 must be shown and
not excluded or replaced by a lower or higher amount.

If you are not able to provide adequate proof of export within the three-month time limit it may
not be possible for the VAT deposit to be returned.
